SKILLS

- **Programming Language** - Java, Python, JavaScript, HTML/CSS, Node JS, React JS
- **Database** - MongoDB, SQL, PostgreSQL, MS SQL
- **Certification** - MS SQL Training Certificate, Coursera Certifications
- **Development Tools** - MYSQL, PgAdmin, Git, VS CODE, Django, React

PROJECT

Face Recognition System 2025.03-2025.03

- I developed a Face Recognition project using Python and the OpenCV (cv2) library. The system is trained on a custom dataset to recognize faces, displaying the individual's name and age upon detection.
Skills: Python (Programming Language)
Code: GitHub

Car Rental Website 2025.01-2025.02

- AutoLuxe- A sleek and user-friendly platform for booking rental cars with ease. Built using HTML, CSS, and JavaScript-DOM, it features a responsive design, dynamic booking forms, and smooth navigation.
Code: GitHub

Transportation/Logistics Website 2025.01-2025.02

- LogiXpress — A professional Logistics and Transportation website offering seamless service booking for Air, Road, Ocean, Rail Freight Warehousing. Built using HTML, CSS, and JavaScript-DOM, it features responsive design, dynamic content, and smooth user interactions.
Code: GitHub

StoreZen – Smart Retail Billing and Customer Management Platform 2025.07-Present

- Built a full-stack intelligent retail management platform with separate Customer and Manager dashboards using React for frontend and Node.js (Express) for backend APIs. Implemented secure JWT-based authentication and integrated MongoDB Atlas for scalable cloud data storage. The system enables smart billing, AI-enhanced product search, chatbot support, loyalty tracking, and role-specific dashboards. Additionally, integrated Python-based services using Django and Flask for advanced AI/ML features. Combined traditional web technologies with intelligent backend services to simulate a real-world mall shopping experience.

Tech Opportunity Explorer 2024.07-2024.08

- This project, developed by me, integrates Java (Core + Advanced), DSA, and Database Connectivity (JDBC). It showcases my understanding and application of these key concepts
Code: GitHub

EDUCATION

B.tech in Computer Science, LJ University 2023.06-2027.06
